OFFICIAL PARTNERSHIP • 2026/27 SEASON

SCORZA IS THE OFFICIAL PERFORMANCE PARTNER OF THE SOUTH WEST PENINSULA LEAGUE

Turn your smartwatch into a football tracker with the Scorza Vest & App

BY SOUTH WEST PENINSULA LEAGUE COMMUNICATIONS • 4 AUGUST 2026

We're delighted to announce that **Scorza is the new Official Performance Partner** of the South West Peninsula League. We are excited to promote Scorza to every player in our leagues as something that, until now, only the professional game has had: real data on how they play.

THE RULES HAVE CHANGED

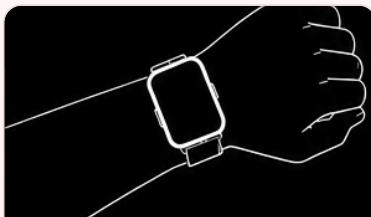

The **new 2026/27 Laws of the Game** permit players to wear a smartwatch in matches, provided it is not dangerous and is **safely and securely covered**. That means the watch you already own can become a proper match tracker. We've **partnered with Scorza** – the only company making a vest that keeps your watch safe and securely covered, paired with an app built for players like ours.

A couple of practical points worth knowing: the watch must be safely and securely covered to comply with the Laws of the Game.

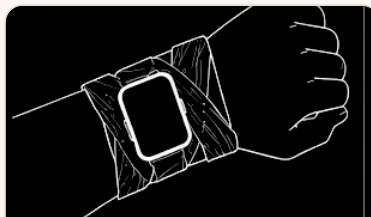

WEAR YOUR WATCH. LEGALLY.

"Safely and securely covered" is the part that matters. A watch left exposed on the wrist doesn't meet it, however it's strapped or hidden.

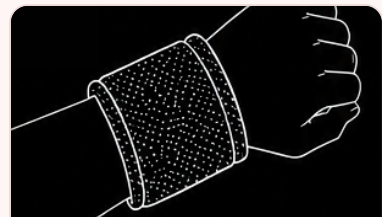

✗ THIS DOESN'T COUNT AS SAFE & SECURE

✗ ON THE WRIST

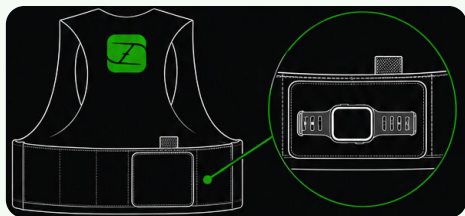

✗ TAPED UP

✗ UNDER A SWEATBAND

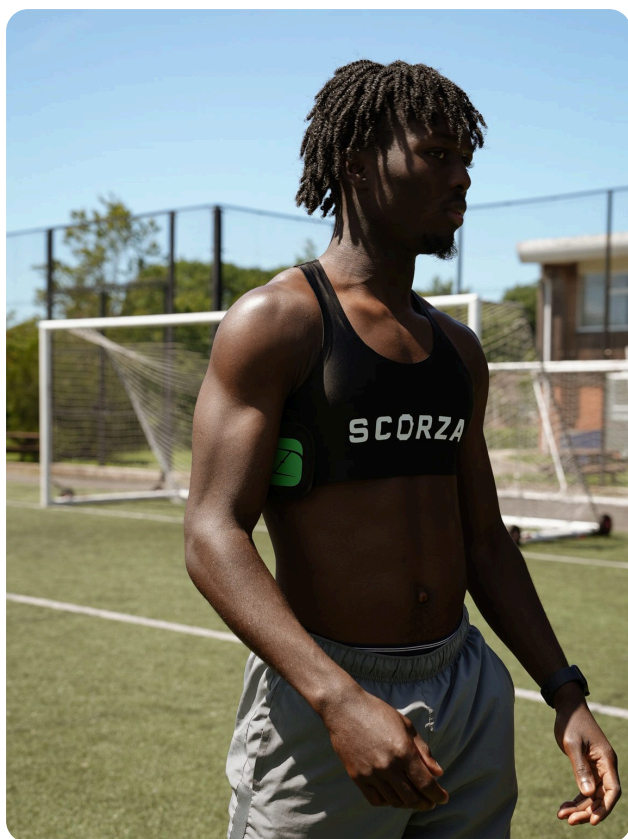

SAFE & SECURE — WORN IN A SCORZA VEST

The watch sits in the padded pocket on the back — safely and securely covered, exactly as the law requires.

SEE WHAT YOUR SATURDAY ACTUALLY LOOKED LIKE

Play the game, then open the app. How far you actually ran, how fast you went at your quickest, and a heatmap of where you really played on the pitch. No new gadget to buy — just the vest and the watch you already own.

THE VEST HOLDS THE WATCH SAFELY AND SECURELY.

It means a full-back in Premier West walks off with the same insights as a professional does. What gets measured gets improved.

"The South West Peninsula League are delighted to enter this new partnership with Scorza and we hope the vest & app will prove a valuable fitness tool to players at all of our clubs."

PHILIP HISCOX, LEAGUE SECRETARY • SOUTH WEST PENINSULA LEAGUE

"Scorza is designed to answer real questions non-league players asked about their games. Working with the South West Peninsula League means players right across Devon and Cornwall get an answer this season, using kit they already own — which is exactly why we built it."

WHAT HAPPENS NEXT

The technology is now permitted, and finally within reach. Players who want to track their game the way the pros do can find out more and get set up directly with Scorza, and clubs will receive information on how to share this with their squads over the coming weeks.

SATURDAY AFTERNOONS ACROSS THE PENINSULA MATTER TO EVERYONE WHO PLAYS THEM. THIS SEASON, EVERY ONE OF THEM CAN BE MEASURED.
